Learn How to Create a Healthy Home

Harris County Public Health & Environmental Services' (HCPHES) Safe and Healthy Homes program is offering a series of four (4) **free** sessions to members of the Aldine community on how to improve the health of their home and family.

The sessions focus on the many causes of housing-related hazards that pose a health risk to children and the elderly. Participants will learn how to identify and correct housing-related issues that affect asthma, allergens and injury hazards.

If you are a senior adult, pregnant or have a child under the age of 6, take action to improve the health of your home and family by registering for this **free** program.

Sessions are held every Wednesday, beginning June 24th thru July 15th, from 1:00pm – 2:00pm at the Aldine Branch Library located at 11331 Airline Drive.

For more information on the Safe and Healthy Homes program or to register call (713) 439-6230 or (713) 439-6905. Also visit our web site at www.hcphe.org.
